Iacopo Libero Bernabei

PROFESSIONAL PROFILE

Responsible for computer network security and data protection, with solid technical training as an IT expert and cross-disciplinary skills in software development, cybersecurity, and IT systems management.

I have gained practical experience with various programming languages and with system automation and monitoring tools.

I successfully completed the IFTS specialization course “Responsible for computer network security and data protection,” during which I studied ethical hacking, cryptography, analysis and management of IT incidents, and implementation of corporate security policies.

TECHNICAL SKILLS

- Java, C++ (Basic - academic)
- Full stack web development (HTML, CSS, JS, PHP, SQL, Next.js, Node.js, Bootstrap) (Intermediate - practical experience)
- Database design (Intermediate - Practical experience)
- Client-server software application development (Advanced - Practical experience)
- API development and use of external APIs (Intermediate - Practical experience)
- Development using AI (Advanced - Practical experience)
- Prompt engineering and use of language models (Advanced - practical experience)
- Network infrastructure design (Intermediate)
- Use of Linux and Windows operating systems (Advanced - practical experience)
- IT skills (Advanced)
- Use of Git and versioning best practices (Intermediate - practical experience)
- Cybersecurity (Intermediate)
- Encryption and secure data exchange (Basic)
- Ethical hacking (Basic - Intermediate)
- Blockchain (Theoretical knowledge)
- AWS Cloud (Basic)
- IT risk analysis and assessment (Intermediate)
- Security incident management (Basic)
- Automation with Ansible and Terraform (Basic)
- Knowledge of fundamental Kubernetes concepts (Theoretical knowledge)

EDUCATION

Network Security and Data Protection Manager

IFTS: Prato, 09/2024 - 10/2025

IFTS Cyber Security Specialist 3

Higher Technical Specialization Certificate and Professional Qualification of Tuscany Region (IV European level)

Score: 93/100

Diploma: IT Specialist

ITIS Antonio Meucci - Florence, 09/2021 - 07/2024

WORK EXPERIENCE

Internship at Neboola S.R.L.

Florence, 05/2025 - 07/2025

I've done an internship at Neboola S.R.L., where I am applying my skills in cloud infrastructure and cybersecurity to real-world projects. Gained hands-on experience with infrastructure as code using Terraform, automated configuration management with Ansible, and container orchestration fundamentals with Kubernetes.

Freelance Full Stack Developer

Florence, 09/2024 - ongoing

I specialize in creating custom websites, content management systems, automation tools, and tailored digital solutions, as well as cybersecurity services, for companies, professionals, and businesses that want to stand out online. I oversee every phase of the project, from needs analysis to structure definition, from UI/UX design to front-end development, through technical implementation, SEO optimization, and securing the website or platform. Every project is meticulously crafted to deliver a modern, reliable, and professional online presence, featuring solutions that are visually appealing, easy to use, fast, and optimized for search engine visibility.

I authorize the processing of personal data contained in my CV pursuant to art. 13 of legislative decree 196/2003 and art. 13 of EU regulation 2016/679 on the protection of individuals with regard to the processing of personal data
